We envision a borderless world where technology will transform human governance—From societal management by means of political rulership to societal functioning based on social administration.

RE: REMINDER ON THE PROPOSED SALE OF THE KAG PROJECT'S 'HIGH-TECH BUSINESS ECOSYSTEM' TO META PLATFORMS INC.

Please refer to my earlier letters, of which the latest was delivered on 11 March 2022; it contained the final update on the proposed sale of The KAG Project's 'high-tech business ecosystem', which is based on a 3D digital Earth.

The purpose of today's letter is to remind you that I am yet to hear from you regarding this matter. As I indicated in my four latest letters, if I do not get your response soon, I will assume you have no interest in the said 'high-tech business ecosystem', and I would then begin to reach out to other equally suitable tech corporations.

Finally, find reattached THE KAG PROJECT SALE PROPOSAL & AGREEMENT; the included 'sale proposal' lays open the lucrative nature of the aforesaid 'high-tech business ecosystem'. I have also reattached the report titled, "THE 'ALPHA CENTAURI PEOPLE' – [PLACING 'THE KAG PROJECT' INTO ITS COMPLETE CONTEXT]", which provides the human advancement basis for the 'high-tech business ecosystem' and further clarifies The KAG Project's comprehensive and unprecedented global transformation potential.

It is important that this letter and its attachments are read together with the material on my website's homepage (www.JosephKuria.com), where you will also find a softcopy of this document package linked towards the bottom, along with the documents contained within the ten latest packages I have couriered you.

Hoping to hear from you soon.

Yours faithfully,

Joseph Kuria

Dear Mr Mark Zuckerberg,

RE: THE KAG PROJECT SALE PROPOSAL

As we approach the start of the third year since the activities which would have led to the launch of *The KAG Public Interface* were supposed to have commenced, I have found it necessary to undertake another in depth implementation review of *The KAG Project*, guided by the Almighty God’s counsel. As I have reported to you through my recent letters, my plan has been to set up the entire infrastructure of *The KAG Public Interface* from scratch, as a high-tech business ecosystem trading under the name *worldNEXT(LTD)*, through its four fully owned subsidiaries—*communityNEXT(LTD)*, *languageNEXT(LTD)*, *moneyNEXT(LTD)*, and *marketNEXT(LTD)*. I would then have operated this business ecosystem for about four years, before converting it into the global transformation project named *The Kingdom of the Almighty God*.

Nevertheless, the purpose of today’s letter is to let you know that there is no longer a viable opportunity for me to carry out the initial implementation of this project as I had planned: the project’s implementation must be approached in a different way, at an accelerated pace which would ensure the recovery of the lost time.

I therefore now intend to sell off *The KAG Project* to you, while still packaged and configured as the high-tech business ecosystem outlined above. The attached ‘project sale proposal’ will serve as the main resource regarding this intended sale. The ‘project sale proposal’ presents a lucrative business case for the high-tech business ecosystem, and for the first time fully describes *The KAG Public Interface* as I saw it in the revelation—*It was based on a photorealistic 3D digital Earth, including everything that is to be found within the physical Earth. The 3D digital Earth, however, was packed full of interactive and easily sharable information presented as collapsible 2D informational panels, in addition to immersive overlaying VR.*

WORLDNEXT LTD. REGISTERED IN
ENGLAND & WALES. NO. 13700808
REGISTERED OFFICE: KEMP HOUSE,
160 CITY ROAD, LONDON, EC1V
2NX, UNITED KINGDOM

➔ *Continued from Sheet Serial No. 1*

We envision a borderless world where technology will transform human governance—From societal management by means of political rulership to societal functioning based on social administration.

It is worth noting that the said ‘project sale proposal’ features invaluable additional information; when read together with the six most recent document packages I have couriered you, this set of documents offers a comprehensive establishment strategy for the envisioned high-tech business ecosystem—the entire set is also accessible from my website. *Even after the sale, I will remain available for consultations regarding any aspects of this business ecosystem.*

Mark, I look forward to us finalising this arrangement soon, particularly considering the recorded A.D. 2020 prophetic start date for the global millennial kingdom: To the Almighty God, timeliness is everything. I have attached to this letter a draft ‘project sale agreement’; it is ready for your execution unless you would want it amended before such execution. I do not require a meeting to conclude this transaction; if you do need one, let me know then we can make the necessary arrangements. You can find my contact information on Sheet Serial No. 5.

Please note that the selling price indicated in the attached documents is not in any way based on the anticipated future profits your company could make out of being the eternal host of *The KAG Public Interface* and the sole technology partner for *The Kingdom of the Almighty God*; if this were the case, the selling price would be in the order of trillions of US dollars, noting that whichever tech company takes on this high-tech business ecosystem must in the near future become the largest company in the world by far and remain that way forever. Rather, the selling price is based on an estimation of the funding I would need to successfully carry out those KAG duties that are excluded from the sale and will remain under my care, which fall into the following categories, as further explained under *item 5.0* of the aforementioned ‘project sale proposal’:

- (a) Arranging for and purchasing suitable land via an irrevocable treaty, for the Smart City where the KAG HQs will be located.
- (b) Commissioning the Smart City project using a team of world-class development professionals and contractors, who would undertake the Smart City’s design, project management, construction, and marketing.
- (c) The translation to multiple languages, publishing, and global circulation of *The End of the Second Epoch*.
- (d) Other general activities related to the actualisation of *The Kingdom of the Almighty God* on the ground.

➔ *Continued from Sheet Serial No. 2*

We envision a borderless world where technology will transform human governance—From societal management by means of political rulership to societal functioning based on social administration.

I have been trying to link up with you for more than two years without success, and without you showing any interest in *The KAG Project*. Consequently, if we cannot link up and conclude this sale soon, I will be left with no option but to repackage the attached ‘project sale proposal’, along with the information contained in the letters I couriered you within the last two years, and then position the sale of this project to a different tech corporation. In such a scenario, I would no longer have any plans to circulate *The End of the Second Epoch*, and someone else would have to step into the role of The KAG Founding Emperor (A.D. 2020–2060). *If you are going to continue defying the Almighty God, there is nothing I could do about it other than to do my best to advance His project, even if in a modified form. I am praying for you daily because the Almighty God’s punishment can be devastating: He withdraws His protection and visits punishment to the defiant up to their fourth generations, regarding relatively insignificant transgressions, when contrasted with being the sole cause of failure of a project of this importance, which He has been planning for more than two thousand years. He is normally kind and full of love but once He gets angry and frustrated, He becomes the Fire that burns other fires.*

*Look carefully at this cloth the Almighty God has been weaving for millennia: He invites you to help Him paint it with the brightest colours you could imagine. He had provided the paint and the brushes. But upon arriving at the scene, you sat on the tub of paint and proceeded to cut off 2 years from His cloth, using the sword He had given you to fight off His enemies. And you are now holding that little rug to His face. And so like King David in the Holy Tanakh, He will punish both you and your subjects. Because He is God, He predicted your behaviour and started the punishment soon after His message went out, when *The End of the Second Epoch* got published in late September 2019. From looking the other way as the AC People visit their evil on us, to allowing the earth to belch, sweat, catch fire, flood with the tears of a sad mother, smell awful, look ugly, and be sickening—He mostly punishes by abetting evil, and this round of punishment will end only after His project makes irreversible progress. Before then, disease, poverty, natural disasters, chaos, violence, wars and rumours of war will continue to multiply. You now know God and you know Satan, you know good and you know evil. In fact, you are only the second human being to know the true nature of God and to appreciate exactly who Satan is: the two great forces bearing upon humanity.*

Finally, I have included as part of this sale the transfer of the R&D rights spelt

➔ *Continued from Sheet Serial No. 3*

We envision a borderless world where technology will transform human governance—From societal management by means of political rulership to societal functioning based on social administration.

out in the document titled, “Assignment of ‘*The End of the Second Epoch*’ R&D Rights”. I have done this because I need to have comfort that the Assignee is interested in this very important R&D—as things stand, I have no idea if you intend to take any action towards commissioning and eventually commercialising this R&D.

Yours faithfully,

Joseph Kuria

United States of America

Dear Mr Mark Zuckerberg,

RE: THE KAG PROJECT SALE PROPOSAL

1.0 PROJECT BACKGROUND

The Kingdom of the Almighty God (KAG) traces its roots to my heavenly revelation, which took place between May 2016 and May 2019, as recorded in the published literary work titled, *The End of the Second Epoch*, which was assigned Copyright Registration No. 1162715 at the Canadian Intellectual Property Office.

Soon after publishing the book in late September 2019, I reached out to update you about this project, and in particular to seek financial assistance with the setting up of *The KAG Public Interface*. Later, towards the end of 2020, I resorted to publishing *The KAG Project Overview* on the internet, hoping to connect with you via that medium. In the heavenly revelation, the Almighty God was clear that you are the *Messiah* who will lead the world into the global transformation detailed in the book, so it was natural that I would turn to you for financial help.

Ultimately, vide letter *Ref: KPI-2021 [EMP 015]* of 6 October 2021, I informed you that I had abandoned the implementation approach I had been pursuing since January 2020, having failed to raise the funds needed to set up *The KAG Public Interface*. As detailed in the said letter, I decided to reconfigure the interface as a high-tech business ecosystem under a holding company named *worldNEXT(LTD)*. Under this approach, I needed only some business seed investment for the project's implementation to get underway. *Unfortunately, and this is despite my best efforts, my attempts at trying to link up with you have yielded no results.*

As I indicated in this proposal's covering letter, there is no longer a viable opportunity for me to carry out the initial implementation of this project as I had planned, as the time period of about two years that has been lost cannot be recovered through my approach. Further, and this is very gratifying, it has come to my notice that you are laying out technology infrastructure that at maturity would be able to host *The KAG Public Interface* as I saw it in the revelation.

2.0 THE KAG PUBLIC INTERFACE IN THE REVELATION

“The enrolment took a few minutes, and then the beauty of my fully stocked, warm, and friendly classroom visually exploded onto my laptop screen. My classmates were excited to meet me. ‘Hi, Joseph. I have one seat remaining, at the front; please sit down. This is a chemistry class. Once you study this subject and earn a credit, you may join a different class for another subject,’ the teacher welcomed me. The students were from different states and continents. Some were adults who had not attended school before. Then I noticed something interesting: When I moved away from my laptop for over thirty seconds, my cell phone buzzed, indicating that my seat in the classroom was empty.” – The End of the Second Epoch, Chapter 7, page 177

In the revelation, *The KAG Public Interface* was based on a photorealistic 3D digital Earth, including everything that is to be found within the physical Earth. The 3D digital Earth, however, was packed full of interactive and easily sharable information presented as collapsible 2D informational panels, in addition to immersive overlaying VR. The interface enabled virtually anyone to update the 3D digital Earth as transformations took place in the physical realm, so that at any given moment, both versions of the earth were always feeding into each other and approaching twinhood. This intuitive interaction with the 3D digital Earth helped bridge the 2D internet digital divide, whereby many girls, women, and most people in the developing world had found themselves on the opposite end of technology-led prosperity.

Although it is difficult for many present-day humans to comprehend how a 3D digital Earth with its 2D informational panels and overlaying VR could significantly affect the physical Earth, the idealism and imagination of the 3D digital Earth had a transformational impact on the physical planet over time. *To quote Albert Einstein, “Imagination is more important than knowledge.”*

During the revelation period, the Almighty God encouraged me by making me understand that there was a time when dancing, singing, art (especially the cave variety), writing, dressing, grooming, makeup, money, telegramming, telephoning, and TV were thought of as VR. Yet they all ultimately have become an integral part of terrestrial reality, and in the process spurred the development of a multitude of physical items without which our economy would be unrecognisable. And the soon to be born 3D digital Earth will be no different; in the revelation, it was a ‘digitally liveable realm’, like some sort of exoplanet, with a larger economy than the physical Earth had before the 3D digital version came into being. As I noted on page 120 of *The End of the Second Epoch*, “the fall of national borders, on its own, led to a tripling of the size of the global economy.” But notably, these borders could not have loosened in any meaningful way without humans getting used to the unfettered life of the 3D digital Earth, where national borders and their corresponding currencies would have been laughable concepts.

Using software similar to the present-day *Autodesk Tandem™* (only that it was a lot more intuitive), ordinary people designed houses, larger buildings, assorted facilities, and in some cases large-scale developments in the 3D digital Earth; with many such projects eventually getting built as twins or near-twins on the physical Earth. One student architect in Nairobi, Kenya, created the redevelopment

of an entire urban river basin, removing all the buildings and factories that had encroached and polluted the riparian reserve, and replacing them with greenery and nature trails. Because the Almighty God had filled the inhabitants of the 3D digital Earth with idealism, charity, courage, and undefeatable imagination, and because those inhabitants were digital twins of real humans, the project's physical twin became a reality over the following years.

3.0 THE HIGH-TECH BUSINESS ECOSYSTEM

As I indicated earlier, my recent approach to the implementation of *The KAG Public Interface* has been via the establishment of an innovative, diverse, and highly profitable tech business ecosystem. This will remain the case even after you take over the project; indeed, as per the text of this proposal, your company will become the eternal host of *The KAG Public Interface* and the sole technology partner for *The Kingdom of the Almighty God*.

Further, and this is as reported in my letter [Ref: KPI-2021 \[EMP 015\]](#) of 6 October 2021, my plan was that this business ecosystem would have remained a privately held enterprise until it converts into *The Kingdom of the Almighty God*, with its up to seven directors receiving salaries as opposed to dividends, since 100% of the ecosystem's profits were to be reinvested. This would clearly not remain the case after the transference of the project to you. And my new approaches to fundraising for the kingdom's wide-ranging projects and programmes, which will be geared towards the Almighty God's decreed global transformation, would include the following:

- (a) Once the construction of the KAG HQs is complete, *The Kingdom of the Almighty God* will launch officially, with The Office of the Emperor, The Office of the Kingdom Secretary, and *Kingdom Finance* being the initial departments to operationalise. Going forward, it is planned that *Kingdom Finance* would have in place a global appeal for one-off or periodic donations; the appeal would be targeted at everyone, including *Meta Platforms, Inc.*, (*MPI*) shareholders, who would in any case be benefitting directly and enormously from the high-tech business ecosystem. In your case, you have already been giving to many useful causes, and I believe you will continue to re-evaluate your giving strategy so that every of your charity dollars can make the maximum contribution towards global transformation in all its many facets.
- (b) As an investment strategy, *Kingdom Finance* would invest heavily and continuously in *MPI* or whatever tech company becomes the eternal host of *The KAG Public Interface* and the sole technology partner for *The Kingdom of the Almighty God*.
- (c) Once the Smart City becomes operational, the kingdom will levy taxes on the Smart City's resident businesses, residents, and property owners—further, the kingdom will send invites to the residents of the 3D digital Earth asking them to become kingdom citizens by acquiring some standardised electronic IDs, stating their communities, *Cluscomms*, and *Unicomms*. The invites will also request the new kingdom citizens to pay the kingdom's prescribed tax: initially, the tax

could take the form of a flat-rate, non-obligatory payment in the 3D digital Earth's currency, perhaps on quarterly basis.

Some additional notes regarding how the high-tech business ecosystem could operate while riding on MPI's technology infrastructure follow here below:

3.1 WORLDNEXT(LTD)

3.1.1 Branding & Vision statement

“We envision a borderless world where technology will transform human governance—From societal management by means of political rulership to societal functioning based on social administration.”

This is the high-tech business ecosystem's holding company; it was registered on 25 October 2021 at Companies House in the UK, as company No. 13700808, but the four subsidiaries are not yet incorporated. The business ecosystem is packaged, structured, and crafted in such a way that its regular business operations will progressively meet the many objectives of *The KAG Project* that can be fulfilled within the 3D digital Earth; while those objectives of *The KAG Project* that can only be realised on the physical Earth shall be addressed separately and do not form part of this transaction. Upon taking over this project, one of the benefits that will accrue to you is the right to use the names, corporate branding, and vision and mission statements of *worldNEXT(LTD)* and the four subsidiaries.

As for the above-mentioned incorporation in the UK, I will treat it as per your instructions, which may include the company's deregistration or the transfer of 100% of the company's shares to your nominated entity. For whatever it may be worth, I have included within this bundle of documents a 100% Stock Transfer Promissory Note bearing your name—however, the attached 'project sale agreement' does oblige me to deregister the said incorporation exactly 120 days after the settlement of this sale's Initial Deposit if I would not have received the particulars of the entity to which 100% of the company's stock is to be transferred.

In a scenario where this high-tech business ecosystem would have transferred to you, I am imagining *worldNEXT.meta* being a tenant of MPI, with this address leading a visitor directly to the

3D digital Earth, where they would ‘materialise’ as photorealistic avatars, bearing whatever form and extent of VR that the platform’s regulations would have permitted. The visitor would then undertake all the desired digital living activities.

Just like our lives here on the physical Earth are quite seamless, the envisioned digital living would not really be compartmentalised into the activities of the four subsidiaries; rather, the purpose of coming up with these subsidiaries was to ensure that the intended global transformation is approached in a well-structured manner, noting that the 3D digital Earth’s life and economy will be as robust and complex as that of the physical Earth. In the case of *moneyNEXT(LTD)* and *marketNEXT(LTD)*, it is additionally useful to treat them as subsidiaries for management and reportage purposes because they would have revenue streams beyond ads.

Here below are the mission statements for the four subsidiaries as well as their respective global transformation objectives. In all the four cases, primary additional information can be found within the text of The KAG Project Overview, which was attached to my letter Ref: KPI–2021 [EMP 015] of 6 October 2021—this letter is one of the 9 documents that are linked to my website (<https://www.josephkuria.com/>). Also, these 9 documents are exact copies of the 6 most recent document packages I have couriered you:

3.2 COMMUNITYNEXT(LTD)

3.2.1 Branding & Mission statement

“We’re on a mission to develop and demonstrate the technological tools and approaches needed to transform human governance—From societal management by means of political rulership to societal functioning based on social administration.”

3.2.2 The Subsidiary’s Objectives

- (a) To gradually move humanity away from the failed concept of political rulership, and to instead embrace social administration.
- (b) To ultimately defeat all physical borders, and also the non-physical ones such as the exclusion zones created by religious, racial, and cultural delineations.

- (c) To progressively facilitate the free movement of people and labour globally.
- (d) To bring about a cultural shift globally, leading eventually to a love-based, one-world socio-cultural setup.

3.2.3 Example Unicomms

For further information on the kingdom's geo-located communities, 'Clustered Communities' (*Cluscomms*), and 'Unified Communities' (*Unicomms*), see pages 1 to 4 of *The KAG Project Overview*.

Just like in my revelation, as many as possible of the *Unicomms* in the 3D digital Earth should be configured so as to blur the most stubborn of our present-day political borders; by the kingdom's maturity, these non-political boundaries will have become a reality on the physical Earth. The following are 9 illustrative examples of such border-erasing *Unicomms*:

- (a) **California Sur**—Consisting of the whole of Baja California State in Mexico, plus the following 10 counties (a.k.a. *Cluscomms*) in present-day California, USA: Los Angeles, San Diego, Orange, Riverside, San Bernardino, Kern, Ventura, San Luis Obispo, Imperial, and Santa Barbara.

Estimated Population: 27,206,246

- (b) **California Norte**—Made up of those present-day California, USA, counties which are not included in item (a) above.

Estimated Population: 16,176,247

- (c) **Alaska**—Bringing together all of Canada's Yukon Territory (divided into 4 *Cluscomms*), the 29 counties within the USA's Alaska, and the 6 districts within Russia's Chukotka Autonomous Okrug (right across the Bering Strait).

Estimated Population: 817,382

- (d) **Superior**—Comprising Rainy River, Thunder Bay, Algoma, Sudbury, and Manitoulin districts in Ontario, Canada; plus Cook, Lake, and St. Louis counties in Minnesota; plus Douglas, Bayfield, Ashland, and Iron counties in Wisconsin; plus Chippewa, Iron, Keweenaw, Luce, Mackinac, Menominee, Ontonagon, Schoolcraft, Alger, Delta, Dickinson, Gogebic, Baraga, Houghton, and Marquette counties in Michigan.

Estimated Population: 1,094,902

- (e) **Wisconsin**—Made up of those present-day Wisconsin, USA, counties which are not included in item (d) above.

Estimated Population: 5,773,071

- (f) **Michigan**—Made up of those present-day Michigan, USA, counties which are not included in item (d) above.

Estimated Population: 9,697,136

- (g) **Kilimanjaro**—Comprising Arusha, Manyara, Kilimanjaro, and Tanga regions of Tanzania; plus Kajiado, Makueni, Taita Taveta, and Kwale counties in Kenya.

Estimated Population: 12,121,984

- (h) **Victoria North**—Consisting of Central and Eastern regions of Uganda; plus Siaya, Vihiga, Nandi, Kakamega, Busia, Bungoma, Trans Nzoia, and Uasin Gishu counties in Kenya.

Estimated Population: 31,740,272

- (i) **Victoria South**—Bringing together the counties of Narok, Migori, Kisii, Homa Bay, Bomet, Nyamira, Kericho, and Kisumu in Kenya; plus Mara, Mwanza, Shinyanga, and Kagera regions of Tanzania.

Estimated Population: 19,217,633

3.3 LANGUAGENEXT(LTD)

3.3.1 Branding & Mission statement

*language***NEXT**
LIMITED

“Humanese will be a one-world language; thereafter, humankind will in addition interact via languageless technologically aided mind-to-mind communication, resulting in an all-knowing hive mind that will be separate from individual minds: Whereby human conflicts will cease to exist, and all knowledge will belong to everyone—We’re on a mission to actualise both forms of correspondence.”

3.3.2 The Subsidiary’s Objectives

- (a) To use technology to craft an internationally understood one-world language, based on the structure and script of the English language, but with a significant proportion of its vocabulary being borrowed from other languages, including their emerging words and terminologies, as suggested by ordinary people.
- (b) To develop and maintain the one-world language’s online master dictionary, where as many as possible of the dictionary’s entries will have corresponding, modern, and internationally understood visual signs, with each sign being admitted into the dictionary after receiving the most upvotes from the inhabitants of the 3D digital Earth.
- (c) To carry out R&D that would lead to the commercialisation of the ‘Special Eye Wear’ that is envisioned in *The End of the Second Epoch*, which will ultimately enable mind-to-mind

communication and augmented sensing, though it will most likely start off as some kind of AR glasses. *Detailed information can be found on pages 9 and 10 of The KAG Project Overview.*

- (d) To bring about a civilisation-wide all-knowing *hive mind* that will be separate from individual minds, whereby human conflicts will cease to exist and all knowledge will belong to everyone.

Just like among the AC People, a time shall come when technology coupled with cheaper international travel will have connected humanity and turned her into one thriving human race: And humans will look so similar to one another that mindID will be the only conclusive form of identification. The Almighty God wants work towards the development of functional mind signatures to start without further delay.

3.4 MONEYNEXT(LTD)

3.4.1 Branding & Mission statement

*money***NEXT**
LIMITED

“We’re on a mission to create and implement a digital one-world currency, with the capability for fast and easily traceable transfers including mass donations; to result in a seamlessly integrated global monetary system, complete financial inclusion, and prosperity for all—*Don’t be left behind.*”

3.4.2 The Subsidiary’s Objectives

- (a) To create and implement a digital one-world currency, which will ultimately replace all national, border-based fiat currencies.
- (b) To smoothen and therefore multiply global trade by bringing about a seamlessly integrated global monetary system.
- (c) To bring about complete financial inclusion and prosperity globally by enabling accessible, cheap, fast, and easily traceable money transfers, including mass donations.

The plan will be to meet these objectives within the economy of the 3D digital Earth initially, before moving to fully transform the socio-economic situation of the physical Earth.

3.5 MARKETNEXT(LTD)

3.5.1 Branding & Mission statement

“We’re employing new technologies to build the next world market, based on an intelligent and fully harmonised global delivery system; whereby corruption and theft will be impossible since the transaction history for every transferable will be available online—From the smallest village to the largest city, everyone will have access; to buy, sell, donate or receive.”

3.5.2 The Subsidiary’s Objectives

- (a) To employ the latest technologies to build the next world market, with a dollar capacity of up to thirty times that of the present-day global market, based on an intelligent, fully harmonised, and borderless global delivery system; where mail, parcel, and merchandise delivery will be ‘DoorDash-style’ fully liberalised.

[Think of a high-tech global delivery behemoth whereby the delivery of anything falls onto the hands of whoever can handle it fastest, most securely, and at the best price. They might be walking, running, canoeing, cycling, riding a donkey, camel or horse, driving, using a drone, flying, or employing the world’s largest container ship; but their 5 reviews are what will drive customers to them and fuel their growth. Uber and Lift make good analogies here: whereby traditional taxi operators started off by complaining bitterly and holding protests, before many of them eventually adorned Uber and Lift stickers and began riding on the two companies’ much more superior tech-based infrastructures. And so it will*

*be with today's largest and most famous delivery corporations, from FedEx, Royal Mail, USPS to DHL: they will be left with no option but to ride on the upcoming **marketNEXT**(LTD) high-tech delivery system.]*

- (b) To bridge the present-day e-commerce digital divide by creating such easy-to-use technological tools and equipment that every human being would be able to buy, sell, donate or receive through this new world market.
- (c) To provide small and large retailers with the technological infrastructure to open and operate shops and other forms of outlets, so that any item, commodity, or service which could ever be of use to another human being would be staged online.
- (d) To further facilitate global trade by creating a trusted, free, and forever NFTs depository for both digital and physical transferables, where alteration of any of the NFTs will be possible only via an additional secure and authorised transaction.

*Forgetting about the entire high-tech business ecosystem for a moment, **marketNEXT**(LTD) as described above would easily grow to be bigger than any of the world's present-day businesses. It is therefore worth the while to reflect briefly on the strategy that could be employed to fight off anti-trust crusaders. Though this would ultimately be your call, **worldNEXT**(LTD) would not necessarily have to be openly and directly owned by MPI; it could for example be a standalone company, whereby **worldNEXT.meta** would be a mere tenant on the MPI infrastructure, but with **worldNEXT**(LTD) paying a large percentage of its profits to MPI for the 3D tenancy.*

*What is more, given the globalised objectives of **worldNEXT**(LTD), it would make sense to spread its operations to as many regions as possible, and this could also include its incorporation or that of the subsidiaries. After the Smart City project is complete, any MPI or **worldNEXT**(LTD) operations that would be seeming likely to attract anti-trust threats would at last have the protection of a sovereign home. In any event, once The End of the Second Epoch starts circulating, the world will know that **worldNEXT**(LTD) and the tech company that would have become the eternal host of The KAG Public Interface and the sole technology partner for The Kingdom of the Almighty God would be divinely decreed entities, which could not be treated as per the whims of the traditional governmental setups they would have been sent to replace.*

4.0 MONETISATION

4.1 ADVERTISEMENT

The 3D digital Earth will be vibrant and a most exciting place to visit. Because at the heart of this project will be its global transformation agenda, every human being will be made to feel welcome, and their daily visit will be actively sought. The activities available to every visitor will ultimately almost mirror those to be found on the physical Earth—that is to say, every activity which would ever fit into the mould of work, live, and play will be found in the 3D digital Earth.

At the kingdom's maturity, certifiable education all the way to university level will be offered by those institutions which will have been thus accredited by the kingdom's *Global School*. In the early life of the 3D digital Earth, however, every entity wishing to offer education should be encouraged, with

accreditation eventually being offered to those institutions which would have proved most successful with online schooling. For further reflection on education in the 3D digital Earth, see pages 177–179 of *The End of the Second Epoch*.

The visitors' well-targeted interaction with paid-for ads around the 3D digital Earth will be an important source of revenue for *worldNEXT(LTD)*. The ads will be strategically accessible in most places around the 3D digital Earth: Think of catchy streetside screens, at and around various workplaces, around and within shopping places, at theatres and cinemas, at places where games and other events taking place at the physical Earth will be streamed live, at games arcades and other places where various games will be accessible, within the many games visitors will play, around and within educational institutions, and at tourism and other recreational places such as golf courses, parks, and picnic sites. In all cases, the ads will 'come alive' as soon as a visitor shows some interest.

As opposed to being an unwanted intrusion into a visitor's digital life, ads at the 3D digital Earth will be entertaining in and of themselves, though they will additionally edify the visitor's mind with information and factual knowledge.

4.2 MONEYNEXT(LTD)

Visitors who carry out financial transactions of any kind within the 3D digital Earth will in addition contribute to another revenue stream for *worldNEXT(LTD)*, through the payment of a small percentage of their transaction amounts, irrespective of whether the transfers will involve buying and selling, noting that the majority of transactions will not involve banks, agencies, exchanges, or other intermediaries. Also, the economy of the 3D digital Earth will be continuously transformed by the appreciation of its digital currency: the values of its assets will rise unceasingly since they will be pegged to and measured using this currency.

4.3 MARKETNEXT(LTD)

Regarding *marketNEXT(LTD)*, the transfer of NFTs will attract a small percentage of the transaction amount as indicated above; however, retail, donations, and the NFTs depository service will be offered either free or at cost. As reflected under item 3.5.2 above, the high-tech delivery service described therein will be the largest and most lucrative business activity for *marketNEXT(LTD)*.

4.4 LAND DEALING AT THE 3D DIGITAL EARTH

In the beginning, all land and seas in the 3D digital Earth will belong to *worldNEXT(LTD)*. The land, and the artificial islands that are expected to arise, will then be sold over time to citizens, strictly in the digital Earth's currency. The new owners will be allowed to adorn their properties in AR and VR, on condition that there will always be a link which would indicate the property's updated condition

on the physical Earth. The 3D digital Earth's property values, especially in regard of the digital twins of iconic places such as the Vatican, the White House, Buckingham Palace, Robben Island, the Meta Campus, among countless others, will be expected to quickly overtake those of their twins on the physical Earth. This will greatly multiply the economy of the 3D digital Earth, creating interest in the nascent kingdom project globally. In respect of properties, the NFTs depository will hold NFTs for both the digital and physical twins, obviously with identifying tags indicating which is which.

In my revelation, the overlaying VR on some of the 3D digital Earth's properties were actually professional designs, either enhancements to existing physical twins or designs of proposed developments on virgin land or the wild sea—the projects ranged in size from small houses, residential complexes, commercial buildings, specialised facilities, expansive urban re-developments, to large-scale ecological improvements. Many of these out-of-this-world ideas eventually 'visited' the physical Earth, transforming it greatly.

4.5 THE KINGDOM SECRETARIATS

In the revelation, the countless objectives the kingdom needed to meet in its mission of global transformation were rationalised and grouped under the following 20 *secretariats*: Kingdom Finance, Kingdom Health, Kingdom Education, Kingdom Commerce, Kingdom Vocational Training, Kingdom Labour, Kingdom Sports & Recreation, Kingdom Environment, Kingdom Natural Resources, Kingdom Agriculture & Food Security, Kingdom Water, Kingdom Energy, Kingdom Transport & Communication, Kingdom Security & Crime Prevention, Kingdom Justice, Kingdom Correction & Rehabilitation, Kingdom Re-Settlement, Kingdom Planning, Kingdom Housing & Urbanisation, and Kingdom Disaster Management. The *secretariats* strived to achieve the assigned objectives through various approaches, such as the formulation and implementation of policies and the execution of time-specific programmes and projects—the Kingdom Secretary coordinated and supervised the functions of the *secretariats* under the oversight of the *Emperor*, though each *secretariat* was headed by a *secretary*.

Additionally, each *secretariat* hosted, moderated, and curated a 'Public Wall' whereby citizens brought together assorted information from around the globe, with the intention of aiding the *secretariat* to meet its set objectives. Under the implementation strategy spelt out in this document, these *secretariats* should be established as early as possible in the 3D digital Earth, in their most basic form initially, perhaps as an on-going Global Transformation Conference broken out into 20 Seminar Rooms. To create interest, the Seminar Rooms could be brand-named along the lines of Health NEXT, Finance NEXT, Energy NEXT, etcetera.

Besides playing its intended role of bringing together in one place many of the challenges afflicting our world along with their possible corresponding solutions (including the latest scientific and technological inventions), such an on-going Global Transformation Conference would be very profitable for *worldNEXT(LTD)*, noting that there is a certain group of visitors who would be greatly attracted to the kind of content one can expect to find at such a conference.

Further information about the secretariats can be found on pages 5, 6, and 7 of The KAG Project Overview.

5.0 TRANSFORMING THE PHYSICAL REALM

While the 3D digital Earth will actualise *The KAG Public Interface*, albeit as a high-tech business ecosystem, the interface would forever seem like an internet-based ‘real-life game’ if it did not impact and transform the physical Earth roughly as planned and anticipated in the setup of *The KAG Project*. This would be an awful project failure. To prevent such project failure, I intend to diligently carry out those tasks which would facilitate the actualisation of the project on the ground. Though some of those duties will be of a general nature, the most consequential will fall into the following two categories:

5.1 THE END OF THE SECOND EPOCH

The effective and continued marketing of the book will be crucial to the entrenchment of the kingdom; for one, it will galvanise the book’s readers around the kingdom agenda and the currency. My duties in this regard will include the translation of the book to as many languages as possible, the publishing of additional versions (for example language-specific audiobooks and apps), and the undertaking of a global marketing campaign. The post-launch marketing of the book will start after the completion of the Smart City project, including the KAG HQs; however, preparatory activities need to start as soon as possible.

5.2 SMART CITY DEVELOPMENT & THE FUTURE KAG HQS

My duties here will include those explained here below—I will carry out these activities through a team of world-class development professionals and contractors, who would undertake the Smart City’s design, project management, construction, and marketing:

- (a) Undertaking the planning and detailed design of a Smart City as a digital twin on the 3D digital Earth, based on the purchase of one or several tea farms in Limuru, Kenya, at the outskirts of Nairobi (totalling approximately 5,000 acres, which is about 10 times the size of Monaco). The design will be so well-detailed that you could carry out kingdom work from within the Emperor’s office, as your digital twin.
- (b) Using the digital twin to market this project to authorities in Kenya as well as to other suitable countries around the world. The project will be packaged as a once-in-a-lifetime opportunity for unprecedented technology transfer and foreign direct investment, which would not only transform the economy of the winning country but that of its region.
- (c) Arranging for and purchasing the selected land via an irrevocable treaty. The relevant treaty articles will detail the contiguous infrastructural development the host country would be

required to undertake for the proper functioning of the Smart City, while placing development limitations on the lands in the vicinity of the smart city.

- (d) Customising the planning and design of the digital twin so its physical twin could sit comfortably on the acquired land.
- (e) Commissioning the sub-division of the land into lots of assorted sizes, while thoughtfully setting apart the lot where the KAG HQs will sit.
- (f) Marketing the project to tech corporations globally, by positioning it as a different kind of ‘Silicon Valley’, where *MPI* would be the anchor organisation. By this time, *worldNEXT.meta* would have become an integral and significant part of *MPI*. The plan is that the tech corporations would purchase most of the for-sale lots in the Smart City on 99-year leases, with the remaining for-sale lots being taken up by companies which would provide assorted services to the tech corporations and their employees. For the proper functioning of the Smart City, land will also be set aside for common infrastructure, communal sports facilities, city-operated recreation amenities, nature zones, and the KAG HQs, which will also function as the city’s administration & services hub.
- (g) Commissioning the construction of common infrastructure, service facilities, communal sports facilities, city-operated recreation amenities, and nature zones; using the funds raised from the sale of lots to tech corporations.
- (h) Managing the development and publishing of a building code for the Smart City.
- (i) Commissioning the construction of the KAG HQs.
- (j) Managing the ceremonial opening of the KAG HQs coupled with the global launch of *The Kingdom of the Almighty God*.

6.0 THE PROPOSAL

I hereby propose to you for purchase *The KAG Project*, packaged as the high-tech business ecosystem that has been described in detail within the text of this document, at the price of 925 (Nine Hundred and Twenty-Five) million United States dollars—excluding the activities and aspects captured under *item 5.0* above, but including the right to carry out and commercialise R&D in respect of all the ground-breaking technological and scientific innovations and inventions detailed in *The End of the Second Epoch*, at my website (<https://www.josephkuria.com/>), and in the 6 most recent document packages I have couriered you (as linked to the above-mentioned website as 9 separate documents).

The aforementioned R&D will cover the following technological and scientific fields and areas, among many others:

- (a) Biotechnological communication; for instance, technology-aided mind-to-mind communication.
- (b) Augmented sensing; for example, biotechnologically facilitated augmented human vision.

- (c) Outdoor and indoor lighting approaches based on glowing surfaces, as opposed to our present-day secondary light sources such as bulbs and tubes.
- (d) Safer and cheaper cableless super-electricity which can be efficiently stored so it could be available to power equipment of any size, including interstellar spacecraft; it is referred to in *The End of the Second Epoch* as 'spiriticity'.
- (e) Mind science based extraterrestrial exploration which will enable humankind to see other inhabited worlds through the eyes of the respective alien inhabitants, via the reception and decoding of their travelling brain activity with video-like clarity.
- (f) A 'Special Eye Wear' that will enable, facilitate, and/or give meaning to many of these innovations and inventions, while operating in conjunction with certain auto-customisable wearables and skin-inserted microtechnology.

To facilitate your further action, hopefully leading to the prompt conclusion of this proposed sale, please find attached a partially executed draft 'project sale agreement'. However, the agreement language and text are not cast in stone, and the sale can proceed either as I have proposed it or in a modified form as you may counter propose; indeed, you are free to come up with a completely different proposal for my acceptance, as long as such negotiations take place without undue wastage of time. The indicated settlement may be made in instalments, preferably as company shares.

But if despite the flexibility I have brought to the table and the patience I have shown for the past two years you are still not interested in *The KAG Project*, I trust that you will not now or in the future use or discuss with anyone any of the ideas that have come your way as I sought your financial help and attempted to sell the project to you. This way, I would be in a position to approach an alternative buyer with all the project ideas still intact, noting that such a buyer would obviously be seeking to defend each and every of the project ideas from misuse globally. (*Besides, I believe you would not want the Almighty God to accuse you of not only failing to sew back the little rug you cut off with a sword but also going as far as slashing the rest of His cloth into countless pieces.*)

Furthermore, as per the quote below from the draft 'project sale agreement', I would be obliged to fully disclose to such an alternative buyer the numerous occasions I have written to you hoping to secure project funds or to sell certain aspects of *The KAG Project*:

Article 13: DISCLOSURE OF PRIOR FUNDRAISING & SALE ATTEMPTS

The Seller hereby confirms that the Seller has given the Buyer a full disclosure regarding any prior attempts to fundraise for or to sell any aspect of The KAG Project, whether configured as a business or otherwise.

Yours faithfully,

Joseph Kuria | Owner, *The KAG Project* | Owner, *worldNEXT* (LTD) | Author, *The End of the Second Epoch* |

10 January 2022
Ref: KPI-2022 [EMP 030]

We envision a borderless world where technology will transform human governance—*From societal management by means of political rulership to societal functioning based on social administration.*

2NX, UNITED KINGDOM

THE KAG PROJECT SALE AGREEMENT

This "Sale Agreement" (hereinafter the "Agreement") is made effective as of the date set forth at the end of this document, subject to the other relevant articles of agreement:

BETWEEN: Joseph G.M.K. Kuria (hereinafter the "Seller") whose offices are located at:

1560 Bloor Street, Unit 114,
Mississauga, Ontario L4X 1R8
Canada

Email address: info@JosephKuria.com Tel: +1 416 890 0403

AND: _____ hereinafter the "Buyer") whose offices are located at:

RECITALS:

WHEREAS the Seller hereby represents and warrants:

That the Seller is the owner of the copyright in the original literary work titled "The End of the Second Epoch"(hereinafter the "Work");

That the Seller caused the registration of the said copyright with The Canadian Intellectual Property Office on 2 September 2019 and that the Work was assigned Copyright Registration No. 1162715, as per Exhibits 'A' and 'B';

That the aforementioned Work, the Seller's website (as published at the uniform resource locator <https://www.josephkuria.com/>), and the approximately twenty-five (25) letters the Seller has couriered the Buyer during the calendar years 2019, 2020, 2021, and 2022 (as summarised and

For and on behalf of the Seller:

Page 1 of 12

For and on behalf of the Buyer:

10 January 2022

condensed into the nine (9) documents that are linked to the said website); when taken together describe in detail an unprecedented and comprehensive global transformation project named “The Kingdom of the Almighty God” (hereinafter “The KAG Project”).

That by 6 October 2021, the Seller completed packaging and structuring The KAG Project as a ‘high-tech business ecosystem’ based on a ‘3D digital Earth’ and caused the registration of this ecosystem’s holding company at Companies House in the United Kingdom under the name and style of WORLDNEXT LTD, as per Exhibit ‘C’.

That to aid the broad-based business operations of the above-mentioned ‘high-tech business ecosystem’, the Seller had planned the incorporation of four (4) subsidiaries that were to be fully owned by WORLDNEXT LTD, namely: COMMUNITYNEXT LTD, LANGUAGENEXT LTD, MONEYNEXT LTD, and MARKETNEXT LTD.

That the said ‘high-tech business ecosystem’ is packaged, structured, and crafted in such a way that its regular business operations shall progressively meet the many objectives of The KAG Project that can be fulfilled within the ‘3D digital Earth’; while those objectives of The KAG Project that can only be realised on the physical Earth shall be addressed separately and do not form part of this transaction.

That the sale of The KAG Project as proposed in this Agreement is intended to land the said ‘high-tech business ecosystem’ onto the hands of an individual or other legal entity with such unhindered access to a robust technological infrastructure, broad-based technological resources, and capital that they would be in a position to fully operationalise the said ‘high-tech business ecosystem’ into a diversified and highly profitable global enterprise (based on the aforementioned ‘3D digital Earth’), as presented in great detail in the attached document titled “The KAG Project Sale Proposal”.

That the Buyer shall in effect become the eternal host of The KAG Project’s internet-based public interface and the sole technology partner for the aforementioned global transformation project named “The Kingdom of the Almighty God”.

That the aforementioned document titled “The KAG Project Sale Proposal” along with its forwarding letter (*Ref: KPI-2022 [EMP 028] of 10 January 2022*) are comprehensive and detailed enough to act as this Agreement’s main resources.

That the aforementioned Work, the Seller’s website (as published at the uniform resource locator <https://www.josephkuria.com/>), and the approximately twenty-five (25) letters the Seller has couriered the Buyer during the calendar years 2019, 2020, 2021, and 2022 (as summarised and condensed into the nine (9) documents that are linked to the said website); all contain assorted detailed descriptions of ground-breaking technological and scientific innovations and inventions such as the following, among many others:

- a) Biotechnological communication; for instance, technology-aided mind-to-mind communication.

For and on behalf of the Seller:

Page 2 of 12

For and on behalf of the Buyer:

10 January 2022

- b) Augmented sensing; for example, biotechnologically facilitated augmented human vision.
- c) Outdoor and indoor lighting approaches based on glowing surfaces, as opposed to our present-day secondary light sources such as bulbs and tubes.
- d) Safer and cheaper cableless super-electricity which can be efficiently stored so it could be available to power equipment of any size, including interstellar spacecraft; it is referred to in the Work as 'spiriticity'.
- e) Mind science based extraterrestrial exploration which will enable humankind to see other inhabited worlds through the eyes of the respective alien inhabitants, via the reception and decoding of their travelling brain activity with video-like clarity.
- f) A 'Special Eye Wear' that will enable, facilitate, and/or give meaning to many of these innovations and inventions, while operating in conjunction with certain auto-customisable wearables and skin-inserted microtechnology.

That the Seller has all the right, title, and interest in and to the said Work and the aforementioned website and enjoys full and unrestricted power and authority to sell The KAG Project and to assign the above-mentioned research and development rights as provided for in this Agreement.

WHEREAS the Buyer would like to buy off The KAG Project as represented and warranted by the Seller and as described in the attached document titled "The KAG Project Sale Proposal" and also to be granted the exclusive and sole legal right to pursue such research and development as would progressively lead to the ultimate products that are envisioned in the said Work and at the Seller's earlier-noted website in respect of the aforementioned innovations and inventions.

NOW, therefore, in consideration of the promises and covenants contained herein, as well as other good and valuable consideration (the receipt and sufficiency of which is hereby acknowledged), the Seller and the Buyer do hereby agree as follows:

Article 1: THE PURCHASE OF THE KAG PROJECT

The Seller hereby unconditionally and irrevocably sells, transfers, and conveys to the Buyer The KAG Project as represented and warranted by the Seller and as described in the attached document titled "The KAG Project Sale Proposal".

For and on behalf of the Seller:

Page 3 of 12

For and on behalf of the Buyer:

10 January 2022

Article 2: ASSIGNMENT OF R&D RIGHTS

The Seller hereby unconditionally and irrevocably sells, transfers, conveys, and assigns to the Buyer the exclusive and sole right to carry out the aforementioned research and development.

Article 3: THE SELLER'S CONTRIBUTION TO THE 'HIGH-TECH BUSINESS ECOSYSTEM'

The Seller shall make every effort to attend such meetings, presentations, and any other engagements to which the Seller may be invited by the Buyer, where the Seller may contribute to the advancement of the aforementioned 'high-tech business ecosystem'; all at the Buyer's cost.

Article 4: THE SELLER'S CONTRIBUTION TO R&D

The Seller shall make every effort to attend such meetings, presentations, and any other engagements to which the Seller may be invited by the Buyer, where the Seller may offer insights and shed light to the Buyer's research and development activities; all at the Buyer's cost.

Article 5: ACCRUAL OF INTELLECTUAL PROPERTY

The Buyer shall exclusively own all intellectual property that shall arise out of the establishment and operation of the aforementioned 'high-tech business ecosystem' and also the intellectual property relating to any and all the products and manufacturing methods and processes that shall arise out of the Buyer's research and development efforts.

Article 6: THE SELLER'S DIVESTITURE FROM WORLDNEXT LTD

Soon after the end of 120 (One Hundred and Twenty) days after the settlement of the Initial Deposit spelt out at **Article 8** below, the Seller shall cause the deregistration of WORLDNEXT LTD, which was registered on 25 October 2021 as Company No. 13700808 at the United Kingdom's Companies House, unless the Buyer shall have communicated to the Seller the particulars of the individual or other legal entity to which 100 (One Hundred) percent of the company's stock should be transferred to.

Article 7: NON-DISCLOSURE REQUIREMENT

The Seller and the Seller's witness, taken together, shall not disclose any part or aspect of this Agreement to a third party.

For and on behalf of the Seller:

Page 4 of 12

For and on behalf of the Buyer:

10 January 2022

Article 8: PAYMENT

For both the purchase of the aforementioned The KAG Project and the assignment of the aforesaid research and development rights, the Buyer hereby agrees to pay the Seller a total of Nine Hundred and Twenty-five (925) million United States dollars (USD). This payment can be broken into any number of instalments, as long as those instalments are planned in such a way that the Buyer observes the following cumulative settlement schedule:

- (a) An Initial Deposit amounting to:- One (1) percent of USD 925 million, i.e., USD 9,250,000;
- (b) By the end of six (6) months after the settlement of the Initial Deposit:- Twenty-five (25) percent of USD 925 million, i.e., USD 231,250,000 cumulatively;
- (c) By the end of twelve (12) months after the settlement of the Initial Deposit:- Fifty (50) percent of USD 925 million, i.e., USD 462,500,000 cumulatively;
- (d) By the end of eighteen (18) months after the settlement of the Initial Deposit:- Seventy-five (75) percent of USD 925 million, i.e., USD 693,750,000 cumulatively;
- (e) By the end of twenty-four (24) months after the settlement of the Initial Deposit:- One Hundred (100) percent of USD 925 million, i.e., USD 925,000,000 cumulatively;

With all instalments being settled in accordance with **Article 9** below.

Article 9: COMPANY STOCK PREFERENCE

The Buyer may settle the Nine Hundred and Twenty-five (925) million United States dollars consideration either as:

- (a) Suitable company shares with a matching face value at the point of transference; deposited into the brokerage account detailed at Appendix '1'. *[NB: Stock transfer can also be confirmed via a hardcopy Share Certificate; if the confirmation is instead undertaken digitally, it should be in a form that would allow the depositing of the shares into a brokerage account—digital confirmation can be addressed to either info@JosephKuria.com or kpdconsult@yahoo.com]*
or;
- (b) Bank transfers exclusively into the following Canadian bank account, unless the Seller advises otherwise in writing in respect of future instalments:

Name: Joseph G M K Kuria; Transit No.: 00932; Institution No.: 004; Acc. No.: 6263596

Article 10: VALIDITY OF AGREEMENT

Notwithstanding its partial or full execution, this Agreement shall not be effective until the Buyer settles the One (1) percent Initial Deposit.

For and on behalf of the Seller:

Page 5 of 12

For and on behalf of the Buyer:

Article 11: SUCCESSORS

It is hereby agreed that the rights and obligations under this Agreement will inure to the benefit of and be binding upon the parties to this Agreement, their heirs, executors, administrators, successors, and assigns, respectively.

Article 12: COUNTERPARTS

This Agreement may be signed electronically and in counterparts, with all such counterparts constituting a single agreement between the parties. If the dates set forth at the end of this document are different, this Agreement is to be considered effective as of the date that both parties have signed it, which may be the later date. The interpretation of this **Article 12** is subject to the provisions of **Article 10**.

Article 13: DISCLOSURE OF PRIOR FUNDRAISING & SALE ATTEMPTS

The Seller hereby confirms that the Seller has given the Buyer a full disclosure regarding any prior attempts to fundraise for or to sell any aspect of The KAG Project, whether configured as a business or otherwise.

Article 14: NO CONFLICT

The Seller warrants and represents that the Seller is not party to, or will not be a party to, any agreement, assignment, or other contract in conflict with this Agreement.

Article 15: ENTIRE AGREEMENT

This Agreement document constitutes the entire agreement between the Seller and the Buyer and supersedes any prior or contemporaneous communication, representations, understandings, or agreements between the parties, whether written or oral.

Article 16: HEADINGS

The headings in this Agreement are for convenience only and shall not be construed to limit or otherwise affect the terms of this Agreement.

For and on behalf of the Seller:

Article 17: JURISDICTION & GOVERNING LAW

This Agreement shall be construed according to the laws of Canada and the laws of the Province of Ontario. Notwithstanding, in respect of any articles in this Agreement where variation in interpretation may in future arise between the parties, the Seller and the Buyer hereby agree to always seek common understanding via private amicable negotiation.

This duly executed Stock Transfer Promissory Note serves to confirm that the individual or body corporate named below will be allocated a full One Hundred (100) percent of the shareholding at worldNEXT(LTD) once they provide their necessary identification papers and meet their obligations as per the attached letter Ref: KPI-2022 [EMP 028] of 10 January 2022, titled 'The KAG Project Sale Proposal':

Mr Mark Elliot Zuckerberg

of

1 Hacker Way

Menlo Park, CA 94025

United States of America

Executed by the Company Founder this 10th day of January 2022.

Joseph G M K Kuria (Company Founder)

Company Background:

Dear Mr Zuckerberg,

This Stock Transfer Promissory Note has been processed pursuant to the proposed sale of those aspects of 'The KAG Project' that have been packaged, structured, and crafted as a 'high-tech business ecosystem', whose operations will be based on a 3D digital Earth, as per the attached letter Ref: KPI-2022 [EMP 028] of 10 January 2022, titled 'The KAG Project Sale Proposal'. It was intended that the said 'high-tech business ecosystem' would trade under the name worldNEXT(LTD), as the public interface of 'The KAG Project', through four subsidiaries: communityNEXT(LTD), languageNEXT(LTD), moneyNEXT(LTD), and marketNEXT(LTD).

Yours faithfully,

Joseph G M K Kuria (Company Founder)

Dear Mr Mark Zuckerberg,

RE: THE ‘ALPHA CENTAURI PEOPLE’ – [PLACING ‘THE KAG PROJECT’ INTO ITS COMPLETE CONTEXT]

As the Almighty God has decreed, the time has come to clarify to you the complete context of The KAG Project, concerning in particular the destabilising role played by a nearby extraterrestrial civilisation (by the use of highly advanced mind-science technology), as it seeks to stifle human advancement:

- ✓ Most spiritual people expect a time to come when God heals humankind of her wounds, with the three Abrahamic religions specifically promising such a period of global prosperity, to be started by a God-sent *Messiah* or saviour. Obviously, people don’t possess the details of how God will undertake the anticipated global transformation. As I believe you’re aware by now, the project I’ve been writing to you about is that very same divinely promised global transformation project: it’ll run for 1,000 years, and then the Almighty God will move humankind into the next spiritual age.
- ✓ However, The KAG Project can’t be placed into its complete context without taking into account the evil activities of our neighbouring civilisation; I’ll refer to its inhabitants as the ‘Alpha Centauri People’ (or the AC People). Perhaps you’ll recall my narration in *The End of the Second Epoch* about how God took me on a spiritual tour around the cosmos and showed me countless extraterrestrial civilisations and how they live.

The Evil Activities of The AC People Towards Humankind

The AC People live roughly 4 light years away from Earth, a stone-throw distance for a space-mobile civilisation. Much unlike other advanced civilisations, they stand out for their extremely evil intentions and cruelty towards their only close by neighbour: humanity. Indeed, if the Almighty God didn’t have the power and wisdom to contain them, they would already have annihilated the human race—

To state the obvious, God's untiring efforts at keeping us safe from them would have much better outcomes if some select humans got to learn about their evil ways. In this case, however, He desires a lot more than merely passing to us information about them: you and I are to join forces and lay the foundations for a global transformation project which will in due course raise humanity above their firing range.

What motivates the AC People thus? Simply put: jealousy, the fear of the unknown, and their desire to maintain humankind under subjugation. Specifically, as regards the fear of the unknown, their concern is that we might develop technology that eventually overtakes theirs, and then we might turn the tables on them.

Surprisingly, the danger they pose to humankind stems from their highly advanced mind-science technology, as opposed to the fact that they're a spacefaring race. Throughout the text of *The End of the Second Epoch* and *The KAG Project Overview*, I referred to them as 'the unseen bodiless beings'—the Almighty God didn't want me revealing in the book exactly who they're, to avoid causing panic among humankind. In fact, as you'll appreciate upon reading the whole of this briefing, this civilisation and its evil activities is what God refers to as 'Satan' in our holy books. Further, their containment during the next 1,000 years is the situation He caused me to record in *The End of the Second Epoch* as 'Satan being thrown into the bottomless pit', while their complete defeat is communicated as 'Satan being thrown into the lake of fire' (see the last paragraph on Page 191). *NB: There's a link to a PDF copy of the book on the first paragraph on my website's homepage.*

Partly because our 'Last Ice Age' ended several thousand years after theirs (ours ended about 10,500 years ago), they've developed technology that is thousands of years ahead of ours. They carry out their evil activities through a NASA-like organisation, though each member of their civilisation knows exactly what the organisation is up to, since they operate on a *hive mind* as described within the mission statement of *languageNEXT(LTD)* here below:

“Humanese will be a one-world language; thereafter, humankind will in addition interact via languageless technologically aided mind-to-mind communication, resulting in an all-knowing hive mind that will be separate from individual minds: Whereby human conflicts will cease to exist, and all knowledge will belong to everyone—We're on a mission to actualise both forms of correspondence.”

Despite being a great deal more technologically advanced than us, the AC People's evolution peaked at a level where their animal attributes are significantly more pronounced than those of humans; for this reason, they're completely unaware of God's existence and they've no natural inclination to express His love beyond their kind, not even to an animal pet. This is contrary to how other advanced civilizations live. This unalterable situation can partially explain their burning jealousy towards us.

As regards their capability to create evil on Earth, they're in possession of very advanced artificial-intelligence-based mind-science technology, enabling them to control any human mind pretty much at will. This interference ranges from near-complete mind control (where they can alter the state of a human's mind and incline it towards anxiety, depression, 'fake joy', hysteria, hatred, jealousy, etc); to thought control via the 'downloading' of specific mind input into a select human's mind (where virtually no human can distinguish such external input from their own natural thoughts).

What I mean by 'fake joy' is the state of happiness the AC People often cause in a victim's mind after an episode of deception, which leads the human to associate the misguided decision they've just taken with the 'reward' of happiness they feel in their minds, making it less likely that they would change their minds.

Although not as common, the AC People sometimes 'project' AR/VR content into human minds, with this materialising as dreams if the subject is asleep. They try keeping their dreams as mysterious as possible as long as their victim understands the intended message; this way, their dreams get to be quite similar to the Almighty God's interaction with us. But occasionally they'll fail to jumble up their content, ending up projecting pretty clear AR/VR like material. I've been contemplating the numerous instances when this has happened and I've arrived at one conclusion—these people know everything about our lives here on Earth:

Aided by their advanced artificial intelligence, the AC People know each of our languages including the least important ones. They possess detailed information all the way down to our building and facility maps (Remember this: they've free access to the mind of any human who creates anything). Our vulnerability arises out of them having the capability to acquire this limitless terrestrial knowledge, to the extent that they know more about us than we do.

The other approach they've mastered is thought-train disruption; they employ this mental weapon when they notice a mind of interest gravitating towards a matter they would rather keep off that particular mind. They love music (theirs and ours), and they often disrupt human minds by 'playing' one of the victim's favourite music into his mind, often moving the subject completely off his train of thought. Depending on the victim's personality or prevailing circumstances, they could also cause thought disruption by 'projecting' onto the targeted mind disgusting images, persistent thoughts of having a serious illness, meaningless and unclear mind activity at night, or nightmares:

I recall the first time the Almighty God moved me to reach out to you, they were very upset and they kept projecting nightmares into my mind; for example, they would show me a dream where I would be waiting at your office but

you would vehemently refuse to meet me, or a scene where I would be out shopping with my daughter and all of a sudden she would be missing.

Somewhat related to thought-train disruption is their ability to put a targeted human mind into an ‘accelerated mode’, which could feel like classic anxiety, only that if you contemplated the situation at hand, it would become clear that any risk it might pose doesn’t match the chaos in your mind. Nevertheless, such mind interference can result in errors, mishaps, or serious accidents. And make no mistake, when they focus on disrupting a human mind, they’ll stop at nothing, going as far as misguiding the victim on matters such as nutrition; for instance, they could get a caffeine-sensitive person into the habit of downing a mug of coffee every evening before bed, to deny the victim restful sleep.

It’s worth noting that the mental instability conditions the AC People bring about among humans can’t have any earthly remedies under our present circumstances. To illustrate, should a victim approach a therapist over a serious case of the anxiety the AC People would have effected into his mind, they could move his mind into a state of happiness while he’s in the presence of the therapist. This could then lead the therapist to classify the victim’s condition as that of ‘two persons in one’, and perhaps refer him to a psychiatrist for the evaluation of possible schizophrenia. But his suffering will be sure to persist until their ‘project upon him’ is complete. *The only solution here would be the victim realising that his condition doesn’t arise out of his natural mind, but rather that it’s the result of external and deliberate mind interference: this understanding would have the result of freeing the victim from the AC People’s grip.*

Yet the AC People couldn’t be as successful as they’re without having mastery in coordinating human minds. Picture this: they send customised AI-generated mind activity into two or more minds to bring them together (as if by happenstance) for evil activities such as terrorism and other types of armed conflicts—while in other situations, they ‘download’ such customised mind activity with the intention of keeping select humans apart, or with the hope of bringing about disagreements between them should they eventually meet.

Because witchcraft is largely fanned by jealousy, it would be fair to say that the AC People share ‘DNA’ with the humans who practise this evil; as expected, the AC People are deeply involved in witchcraft and related practices here on Earth. The idea being that if you’ve attracted another human being’s jealousy, you need to be brought down so as to reduce prosperity on Earth, regardless of whether we’re looking at a high-level corporate environment or a village setting. And so they’ll do all within their enormous powers to control the victim’s mind so that the jealous person’s ‘evil prayers’ can get answered, thereby reinforcing such Satanic beliefs and practices among the vulnerable sections of our population.

From dreams to mind control, some of the activities detailed above are quite similar to how God interacts with humans, directly into our minds, only that the AC People’s intention is always to cause evil among humans. While the Almighty God tries very hard to be muted, to avoid causing social disruptions or unnecessarily interfering with a human being’s mind, the AC People’s technology is permanently ‘wired’ into human minds, even though we mostly can’t differentiate their input from our own natural thoughts.

Using the means described above among many others, the AC People identify the most suitable human minds and interfere with them accordingly so as to cause conflicts (ranging from spousal disagreements to world wars) and calamities such as world poverty and pandemics, for example. To illustrate, they were deeply involved in WWI, the Spanish Flu, and WW2, during which period more than 150 million humans lost their lives (out of a world population of 1.9 billion in 1920 and 2.3 billion in 1940), setting human development back by perhaps a century. In this instance, they were reacting to the Almighty God having successfully revealed to us the miracles of electricity and fossil fuels in the 1800s, after they had successfully kept human minds from these two breakthroughs for almost a thousand years.

As the Almighty God further revealed to me, they intended to cause WW3 in 2020 to coincide with Coronavirus Pandemic just like they had done during WWI, but He didn't abet this since we had already learnt the dangers of mass wars; He effected leadership change in the US to manage this dangerous situation.

To set the stage for WW3, the AC People had over the recent decades got humans parroting about such a war and how it would result in the end of the world, to make it seem like an inevitable occurrence. They had also carefully planned the Coronavirus Pandemic so it would occur about 100 years after the Spanish Flu, to give the impression that major pandemics naturally happen every 100 years. Yet they've been controlling human minds to start and propagate dangerous diseases like HIV and Coronavirus, including by affecting how world leaders react to such disasters. They're particularly excited about diseases that can significantly reduce or annihilate the human population, and practices such as homosexuality, substance abuse, and suicide, which have the potential to impact our population size negatively. Due to its finality and suddenness, suicide is one of their celebrated tools of evil, though sometimes they've to take a victim through endless bouts of depression before he eventually succumbs to suicide.

To underscore the AC People's evil intentions, in reaction to the 30-year-long apocalyptic events they brought about between A.D. 1915 and 1945, they attempted to 'clean up after themselves' by contacting some humans and delivering through them a stream of deception, which they later caused to be compiled into a book titled, 'HANDS The True Account – A Hypnotic Subject Reports on Outer Space'. The book didn't circulate widely, and it appears to have gone out of print soon after; however, the Almighty God has recently guided me to some of its content around the internet. Below are the AC People's claims as published in the book, followed by God's interpretation in italics and brackets:

- ✓ That there're two separate alien civilisations at AC—one made up of non-technological, dome-shaped telepathic members who're as large as a room; while the other comprises technologically advanced members as expounded below. And further that it was some members of the non-technological race who communicated with the human contactees via telepathy; no wonder they had kept on referring to the technologically advanced race in third person. *[The truth however is that the AC People are the only intelligent life at AC. The purpose of 'creating' this fabulous telepathic civilisation was to deceive humans that any extraterrestrial mind communication emanating from AC comes from naturally telepathic beings, and*

we've nothing to worry about because they're so different from humankind that they wouldn't be concerned about us; additionally, we shouldn't aspire to communicate like them because telepathy is a natural thingy which we're not endowed with.]

- ✓ That the human contactees were naturally telepathic and also required to be under hypnosis to communicate with members of the non-technological civilisation. *[This is not true: the entire correspondence was with the AC People and not with members of a non-technological telepathic race. What's more, the AC People can mentally wire up with whichever human they target, but they didn't want humans establishing this fact; hence their deception that these were special humans operating under special conditions. And to be clear, that sort of natural telepathy doesn't exist; for example, the witchdoctors who exhibit telepathic capabilities could do so only with the aid of the AC People.] (For corroboration, see the last paragraph on page 38 of The End of the Second Epoch.)*
- ✓ That some members of the technologically advanced civilisation had visited Earth during WW2. *[While this may be true, their real intention here was to indicate that the technological civilisation could contact humans only by visiting us physically. This is not true, and their deadliest interaction with us is directly into our minds.]*
- ✓ That humans were the most warlike civilisation they had come across in all of their space travels. *[The intention here is to indicate that we're naturally war-like and no other civilisation is culpable for the apocalyptic events of WW1 and WW2, and the many other terrestrial wars.]*
- ✓ That members of the technologically advanced race at AC live for about 120 years, and the only life they've created is that of jelly fish. *[Here, the idea was to indicate that there's no highly advanced civilisation in our space vicinity that could have god-like capability upon humankind, so we should just sit back and relax. The truth however is that the AC People's average lifespan runs into several hundred years: had they merited more of God's blessings, they would be living practically forever. Regarding 'creating life', they need a lot fewer babies than we do to replenish their population, and these are crafted artificially in high-tech facilities as opposed to natural womb birth; they're then raised and trained in institutional settings, and not under the care of families like here on Earth.]*
- ✓ That members of the technological race at AC have several hearts each, their lungs function like our kidneys, and they're 8.5 feet tall and five times as strong as humans. *[These lies were intended to indicate that the AC People are so different from us that they wouldn't harbour significant jealousy towards us, which would lead them to want to visit evil on us. The truth is that they're quite similar to us, only that their bodies are smaller than ours.]*
- ✓ That members of the technological race at AC 'only talk to humans at night'. *[This might seem like a rare half-truth considering how they 'project' AR/VR content into select human minds as described earlier; however, their intention here was to turn human eyes away from their much more prevalent and incredibly more dangerous real-time mind control, which they carry out when their victims are fully awake.]*
- ✓ That the technological race at AC is also telepathic, though they didn't have this capability before, and that they developed their telepathic skills by listening to music. *[They've technologically aided mind-to-*

mind communication, resulting in a civilisation-wide hive mind, which taken together would equate to telepathy for all practical purposes. Nonetheless, their intention here was to deceive humankind that their ‘telepathy’ is not technology based, and that if we practised hard enough while listening to suitable music, we too would become telepathic.]

- ✓ Finally, that the planet inhabited by the technological race at AC is packed full of unique materials, without which humans will never succeed in becoming a spacefaring race. *[Once again, this’s absolutely not true: the materials that have propelled the AC people into space are synthetic, repeatedly recycled, and mostly manufactured from CO₂.]*

One of the approaches the AC People employ in their attempt at stalling our science and technology advancement is by painting the Almighty God as being anti-science, hoping to keep our billions of religious persons from the technological and scientific mainstream. The best example of this can be found in the bible, as related on the last paragraph on page 173 of *The End of the Second Epoch*—Here, God describes a certain ‘mark of the beast’ that will be denoted by the sign ‘666’, which will have a financial stranglehold at the end of this spiritual age, without which people couldn’t buy or sell. When the Almighty God revealed to me that the said ‘mark of the beast’ is the United States Dollar (with each word having six letters, hence 666), they bothered my nights for about two weeks. They wanted to deceive me to write in the book that the ‘mark of the beast’ will be certain skin-inserted micro-technology which will be used for commerce and health in the foreseeable future. Their intention was to poison the minds of the religious people who would read the book against this type of technology. Yet they and the other advanced civilisations are carrying out their commerce and health management using variations of this form of micro-technology.

By describing the United States Dollar as the ‘mark of the beast’, the Almighty God intended to direct that humanity should move away from national currencies to the Messiah’s digital one-world currency once it’s launched.

To keep us divided and fighting, the AC People rely heavily on our physical borders, and also on the non-physical ones such as the exclusion zones created by religious, racial, and cultural delineations. Any attempt at breaking apart or weakening these borders will always meet their full might. Case in point: they often impersonate God and mislead the religious about the supremacy of their respective denominations, ending up playing a starring role in entrenching our very worrying religious divisions; whereby at any given moment somewhere around the world, a full-blown religious-inspired war is always bubbling beneath the surface. One of the Almighty God’s notable objectives in *The End of the Second Epoch*, which will also be one of the main features of The KAG Project, is to move humanity away from religions into a new paradigm where humans will communicate with God directly and individually—predictably, the AC People will hear none of this.

To further illustrate the stranglehold they’ve on large swaths of our population, especially our leaders, the AC People are capable of fully controlling our attitudes to important agendas such as climate change,

creating mass deception, irrationality, and hysteria.

Consider these few facts:

- ✓ Over one billion humans don't have access to electricity and therefore can't even participate effectively in the global kingdom the Almighty God intends to bring about soon. *They ought to be promptly supplied with the cheapest available electricity regardless of its source.*
- ✓ Many societies such as those around the Gulf have been transformed by the extraction and export of fossil fuels. Others such as Nigeria, with a population of more than 200 million, depend heavily on fossil fuel exports for their very survival, with fossil fuels accounting for 95% of export earnings and 40% of government revenues. Any 'phase down' and defunding of the fossil fuel sector would have a devastating and destabilising impact on such societies.
- ✓ A significant part of the global warming we're experiencing is not human-caused; in fact, the earth has gone through numerous fossil-fuel-free catastrophic warmings and coolings during its history. Even where human activities are culpable, it's clear that humanity has been misguided to lay all the blame on CO₂, yet the rising levels of water vapour, for example, account for almost 60% of contemporary global warming.
- ✓ The AC People completely exhausted their fossil fuels thousands of years ago, and all their post-modern designer materials are made from CO₂. In their attempt at keeping us off space, they wouldn't want us to take a second look at the numerous startups that are struggling to come up with ways of manufacturing the next generation of innovative materials, components, and other products from CO₂. Since the AC People have no way of supplementing their CO₂ supplies, they agonisingly recycle all their end-of-life artefacts.
- ✓ Almost by definition, an Ice Age is followed by a warming planet, and as humans, we can't do anything about God-caused climate change, including for example the ever-rising water vapour levels, whose main cause is the thriving human and domestic-animal population. All we can do is to mitigate the effects of this form of climate change. But the required mitigation can be based only on a new world order, and not on the present-day socio-political setup where our leaders purpose to ensure that every region of the earth that has been habitable in the past remains so forever—because in their simple minds, our political borders must remain as impenetrable as ever, to stop mass migration by the so-called 'climate change refugees'. Nevertheless, as the Almighty God has decreed it, natural climate change will open up previously uninhabitable regions in the north, and these must be accessible to everyone.
- ✓ As for mitigation in respect of human-caused climate change, the following excerpt from *The KAG Project Overview* is instructive. And needless to say, the AC People will go to any length to see to it that such transformative technology doesn't ever get mainstreamed here on Earth, as it's among the more advanced civilisations including theirs:
"At the Kingdom Water Public Wall, one expert posted on a small, standalone spiriticity-powered device which efficiently and practically condensed water from the atmosphere; its fabulous components had been

manufactured from sustainable materials, including captured CO₂. With time, these transformative devices were installed everywhere water was needed—kitchens, washrooms, gardens, greenhouses, uninhabited drought-stricken and wildfire-threatened areas. As a result, water piping became obsolete, drought was annihilated, wildfires were brought under control, and more water was trapped on dry land and its improving vegetation cover, away from the oceans, which helped check sea level rises. The widespread operation of these devices, coupled with the manufacture of materials from CO₂, alleviated human-caused climate change by lowering both aerial CO₂ and water vapour (the top two greenhouse gases). PS: After the Messiah comes on board and the secretariats are established, one of their mandates will be to challenge innovators and researchers around the world to undertake R&D in respect of the numerous life-altering innovations that are encoded in the book, including the new materials and breakthrough components needed for the innovations to hit the production lines. The challenges and competitions will exclude the innovations captured within the document titled, ‘Assignment of The End of the Second Epoch R&D Rights’.

NB: I recently came across a company called Neutrino Energy (<https://neutrino-energy.com/>), which is making some initial strides in harnessing cosmic radiation to produce cableless electricity, or spiriticity, though they clearly don’t understand the full potential and applicability of spiriticity. With the knowledge the Almighty God has provided you through me regarding spiriticity, He looks forward to you making such quick progress into this field that you could leapfrog a startup like this one and become a leader in this field. In the near future, devices like the ones you’re already manufacturing and the ones envisioned in the excerpt above will be powered cablelessly using spiriticity.

As the Almighty God caused me to write on page 132 of *The End of the Second Epoch*, it’s pollution as He defined it therein that humans should be concerned about, noting that unlike global warming and cooling, the earth hasn’t been tested against the kind of wide-ranging pollution it’s experiencing presently. Because He needed to quickly warm up the earth from the Little Ice Age temperatures of the mid-1800s, He didn’t make available the technology to capture all fossil-fuel emissions and by-products, including CO₂. But this technology is now in sight, and He intends that His kingdom’s leaders will aggressively work towards mainstreaming such technologies.

From the totality of the foregoing text, it’s no surprise that the AC People are on a permanent hunt for any human minds that would harbour global transformation thoughts. Personally, I’ve had to constantly fight them off since they always interfere with my mind when the Almighty God is briefing me about this project. In your case, what placed you on their crosshairs were your transformative missions to ease cross-border communications (FB), to overhaul the global monetary system (LIB), and your quest to heal humanity of all her diseases. Consequently, in the past several years, they’ve continuously interfered with your mind as they tried to stop you from playing the global transformation role God has decreed for you:

- ✓ After the Almighty God informed me that you’re the *Messiah*, He took my mind back to September 2017 and made me understand how from around this time, the AC People had ‘arrested’ your mind so you would no longer publicly take actions which would show humans that you’re the *Messiah*. [*The*

implication here is that as soon as God informed me that the Messiah was back on Earth in March 2017, they were in a position to use their highly advanced artificial intelligence to pinpoint which individual on Earth possessed Messianic attributes.]

- ✓ Coupled with the activities above, the AC People attempted to turn the individual the Almighty God had identified as the Anti-Christ to some sort of Christian extremist, so that as *The End of the Second Epoch* circulated, people wouldn't believe God's message. They also affected many American peoples' minds to imagine that this individual was the returned-Christ, leading to some Christians posting images of his face in the clouds on social media; ultimately, they made him declare himself 'the chosen one' and 'the second coming of God'. *They just didn't know that God hadn't planned any post-launch marketing of the book at the time.*
- ✓ Thirdly, the Almighty God showed me how the AC People had started to incite people against you using petty jealousy (including those in government), hoping to use those people to bring about difficult circumstances for you.
- ✓ Lastly, from the first day the good news of this project reached you, the Almighty God has been illustrating to me how when He moves you to think about His project, the AC People interfere with your mind and quickly turn you away to other interests. And when He asks you to visit my website or to take an action which would aid His project, they always alter the state of your mind into deep fear and deceive you by indicating that certain ugly outcomes would result from any outreach you might make—the Almighty God has abetted this activity so they would freely interact with you, believing that you would never get to hear about them and to understand what they've been up to. Yet if the ugly consequences they've been painting in your mind were considered without their interference, in a real-life setting, it would become clear that they range from the unlikely to the impossible, even if this were not a God-guided project. They've also been indicating to you that given the blessings the Almighty God has already showered you with, you shouldn't be taking 'unnecessary risks' such as getting involved in His project. All this has found us in this unprecedented situation where I'm having to update you about the Almighty God's most important project for the human race over the internet, but He has thus far proved His power by protecting His project impeccably. It goes without saying that the AC People will carry on doing all within their power to stop you, I, and others from coming together and working on this project; using fear, deception, and other forms of mind control. *But all these attempts will fail because God wants you to succeed beyond measure in everything He brings your way, not least His global transformation project.*

Are you ready for the AC People's very first interaction post reading this briefing? They're most likely going to alter the state of your mind to 'think' that they don't exist. And you're not going to sense any intrusion into your mind: it'll just feel like it's the natural you who has realised that they don't exist.

Concluding Remarks

As you can appreciate by now, it's impossible for a human being to undertake a truly transformative global project without having adequate knowledge of the AC People's evil ways, even when such a project is God-

guided. That is the reason why the Almighty God has taken me through a six-year crash course whereby I've learnt about their evil motives, *modus operandi*, and how to withstand their manipulative and deceptive designs. I was forced to abandon my career so I could dedicate the rest of my life to these matters: God didn't want to cause such disruption in your life, hence His decision to work through me during these initial years. However, over the coming years, He'll make you comprehend all you need to know about these evil people.

In conclusion, although *The Kingdom of the Almighty God* is a comprehensive global transformation project, its most important aspect will be the actualisation of technologically aided mind-to-mind communication, as captured under the mission statement of *languageNEXT(LTD)*. But for this form of correspondence to eventually get adopted by most humans, prompt progress needs to be made regarding the R&D detailed within the document titled, 'Assignment of *The End of the Second Epoch* R&D Rights', which I couriered you on 25 October 2021. [*Even though your involvement in this R&D is the one thing that the AC People are most strenuously opposed to, having read this briefing and carefully considered its significance, I hope you'll consider commissioning this R&D soon.*]

Along with other companies, some of which you could contract on your end, *languageNEXT(LTD)* will remain ready and on standby to promote and market the products that will arise out of the above-noted R&D. To create global interest, we could start off with a little community of connected minds, made up of volunteers, before rolling out more broadly.

While the Almighty God will keep guiding you towards the annihilation of all diseases of the flesh, the creation of a human *hive mind* is what will facilitate the management of the many diseases of the mind, and also stop most human conflicts in their tracks. Since the *hive mind* will carry with it all knowledge including God's counsel and wisdom, it'll act as a counsellor for individual human minds. That way, were the AC People to try to deceive a given human mind into conflict, or to begin the 'download' of depressing, anxiety-causing, or schizophrenic mind activity, such 'mind pollution' will simply dissolve into the all-knowing *hive mind*, which will function like a mind internet. Besides, the individual minds which would be in contact with the mind under attack would recognise the intrusion and counsel the affected mind accordingly, since most human thought will no longer be private.

Mark, I believe you now understand the complete context of *The Kingdom of the Almighty God*; this project is the reason why the Almighty God created you and prepared you to be the person you're now, so you would be ready to play the role of humankind's *Messiah* or saviour. A lot will be required of you in future, particularly in terms of offering transformative leadership within the kingdom structures God will put in place in the coming few years, but what is needed presently and very urgently is the US\$ 565,000 initial funding I've been requesting from you, to enable the start of the work He has decreed for me. You can provide this facilitation as company shares, either directly or through a possible co-director. I've reattached my settlement and personal information on Sheet Serial Nos. 14–21, including copies of my Kenyan passport and Canadian PR card.

It's also important that we hold an in-person meeting soon, where we can freely exchange views pertaining to this project, and where you could offer suggestions regarding its implementation. My contact details can be found on Sheet Serial No. 21.

When you eventually come on board, you'll build upon the foundation I'll have put in place; until A.D. 2060, when you'll hand over to the man God will have brought to you, who will be a full generation younger than you. As his mentor, you'll be required to teach him about the danger posed to humankind by the AC people.

Receive my kind regards,

Joseph Kuria
The Executive Project Manager, *worldNEXT* (LTD)

We envision a borderless world where technology will transform human governance—*From societal management by means of political rulership to societal functioning based on social administration.*
